

Raybestos '69 Mustang to be Awarded to Auto Care Industry Repair or Parts Professional

MCHENRY, III., Aug. 9, 2016 – Raybestos® brakes will announce the winner of its custom-built 1969 Mustang to one lucky auto care industry repair or parts professional during the Automotive Aftermarket Products Expo (AAPEX) in Las Vegas, according to Kristin Grons, marketing manager for Brake Parts Inc.

“Automotive service and parts professionals work hard every day to keep their customers on the road, so when we decided to restore an iconic muscle car like the 1969 Mustang, we knew it should go to someone who knows cars and has made a career in the auto care industry,” said Grons.

“It’s easy to enter for a chance to win the one-of-a-kind Mustang,” continued Grons. “For example, automotive professionals can submit part number end flaps from Raybestos Element3™ or European brake pads to receive entries into the Raybestos '69 Mustang sweepstakes. To learn more, visit www.raybestos.com or ask your Raybestos representative how to enter.”

Entries into the Raybestos Mustang Sweepstakes must be postmarked by September 15, 2016 and can be earned by participating in the Raybestos “Cruise the Summer” and “Rev Up Your Walls” promotional programs through the end of August. Details can be found by visiting www.raybestos.com/promotions.html.

The iconic Raybestos '69 Mustang is currently traveling throughout North America before making its way to Las Vegas, where it will be awarded to the lucky winner on November 2 during AAPEX. Painted in classic colors and striping that are true to the time, the classic muscle car features a new Ford® Coyote engine similar to the one found in the modern Boss 302. Schwartz Performance installed its famous “G-Machine” bolt-in chassis and an off-the-shelf performance disc brake upgrade package, using Raybestos components and Element3™ brake pads with Enhanced Hybrid Technology (EHTTM).
