Raybestos® Adds New Friction, Rotor, Hydraulics Coverage

MCHENRY, III. – Jan. 26, 2023 – Raybestos® has added 64 new part numbers to its braking portfolio of friction, rotors and hydraulics that cover over 19 million vehicles in operation (VIO).

New Element3™ and R-Line brake pad and rotor coverage is now available for late-model domestic and foreign nameplate passenger cars, pickups and luxury vehicle models, including Acura, Buick, Cadillac, Chevrolet, Ford, Genesis, GMC, Honda, Hyundai, Jeep, Kia, Lincoln, Mercedes-Benz, Nissan, Ram, Tesla and Toyota. In addition, Element3 late-model brake hose coverage has been added for Ford, Jeep and Ram, and new classic coverage is offered for 1966-1971 Jeep; 1968-1972 Ford and 1993 Land Rover.

Raybestos Specialty coverage has been expanded with Police brake pads and rotors for Cadillac, Chevrolet and GMC, Performance rotors for Ford and Tesla, and Truck rotors for Cadillac, Chevrolet, Ford, GMC, Jeep, Mack and Ram.

The complete family of Raybestos® brake products include disc pads and shoes, drums and rotors, master cylinders, wheel cylinders, calipers, hoses and hardware. To learn more about new part numbers and their applications, customers should contact their First Brands Group™ representative.

“We are pleased to announce the addition of new friction, rotor and hydraulic coverage that further expands our family of quality Raybestos brake part components,” said Greg Vyletel, Executive Director, Brake Engineering and Product Management, First Brands Group. “Our brakes team is focused on the timely introduction of new part numbers to meet the needs of our customers and deliver top-quality brake parts that they can rely on to get the job done right, the first time.”
