## Raybestos Adds New Training Videos to Website

**MCHENRY, III. – Feb. 19, 2018** – Raybestos® has added several [training videos](#) to the resources section of its website to demonstrate proper brake repair techniques and provide the knowledge needed to perform the perfect brake job.

“Have you ever wondered why it’s important to match OE specifications on lightweight rotors? Do you want to learn how to properly perform a master cylinder bench bleed? Automotive professionals will find answers to these questions in addition to many other helpful tips and useful information when they watch the new ‘how-to’ training videos located on the Raybestos website,” said Kristin Grons, marketing manager, Brake Parts Inc.

The new Raybestos training videos can be viewed on the [www.raybestos.com](http://www.raybestos.com) website by clicking on the “Resources” tab and then on “How-To Videos” on the drop-down menu. Topics include:

- Properly Remove a Caliper
- Types of Brake Fluid
- Overfilled Master Cylinder
- Brake Fluid Discussion
- Brake Bleeding Process
- Plated Calipers Discussion
- Coated Rotors Discussion
- Brake Lubrication Discussion
- Isolation Test
- Lightweight Rotor Comparisons
- Master Cylinder Bench Bleed
- Hub Bearing Replacement '04 Escalade
- Ford F-150 Rotor Replacement
- Brake Inspection

The videos can be viewed free of charge, 24 hours a day, seven days a week and can be revisited as often as necessary at [www.brakepartsinc.com/raybestos/en-us/how-to-videos](http://www.brakepartsinc.com/raybestos/en-us/how-to-videos).

### **About Raybestos**

Raybestos® has been known as the best in brakes for over 100 years. With a demonstrated commitment to research, development and testing, Raybestos is widely recognized for quality brake components, including friction, rotors, drums, calipers and hydraulic products. The brand was the first to introduce Enhanced Hybrid Technology (EHT®) with its Element3® brake pads, delivering the best attributes of ceramic and semi-metallic for optimal performance, improved pad wear and durability, and increased stopping power during aggressive braking. Raybestos is the flagship brand of Brake Parts Inc, a global supplier to major auto parts organizations. To learn more, visit [www.raybestos.com](http://www.raybestos.com).
